

# Near Doubles Above

3	5	7	9
11	13	3	5
7	9	11	13
5	3	9	7

Roll the die and to whatever number you roll, add the number that comes after it. For example, if you roll 5, it will be:  $5 + 6 = 11$  and you will put your counter on 11. In order to win, you must get 4 in a row.
